First Name _____ Last Name _____

Address _____

City _____ Zip Code _____ County _____

Home Phone _____ Work Phone _____

E-mail address _____

Have you used any of our services before? Yes No

How did you hear about this program? Word of Mouth/ Website/ Craigslist/ Flyer/ Event/ Newspaper

What the PAL+ Program Offers:

The PAL+ Program covers the cost of spay/neuter surgery minus a \$20 co-pay for cats and \$25 co-pay for dogs. These prices include post-surgery pain management for cats & dogs and e-collars (cones) for dogs. PAL+ clients are able to purchase the rabies vaccination and the distemper combo vaccination for a discounted price of \$7.50 per vaccination. PAL+ clients may also purchase microchips at a discounted price of \$15 per microchip. ***If approved, you will be an active PAL+ client for six months***, allowing time to have your animals spayed/neutered and to take advantage of the special pricing for vaccinations and microchipping. ***The PAL+ Program is meant to be a one-time opportunity per individual/family. If you add pets to your household or need yearly boosters for your current pets, you must complete a new PAL+ application and be reapproved. For questions please call (970) 817-5952 or email judy.miotke@savinganimalstoday.org.***

Pet Information:

How many pets are currently living in your household? Dogs _____ Cats _____

Please list below all of the animals in your home

1. **SPECIES:** Cat__ Dog__ **SEX:** Male__ Female__ **Is this pet spayed/neutered?** Yes__ No__

Name of Pet _____ Breed _____ Color _____ Age _____

How long have you owned this pet? _____

Where did you get this pet? _____ Approximate weight (dogs only) _____

Has this pet ever been seen by a veterinarian? Yes No

Has this pet ever birthed or sired a litter? Yes No If yes, how many? _____

Is this pet up-to-date on vaccinations? Yes No

If no, which vaccinations does this pet need? Rabies Vaccine Distemper Combo Vaccine

Is this pet microchipped? Yes No If no, would you like it microchipped? Yes No

Please list any health problems this pet has: _____

2. **SPECIES:** Cat__ Dog__ **SEX:** Male__ Female__ **Is this pet spayed/neutered?** Yes__ No__

Financial Information:

You must include a copy of the following with your application:

- Photo I.D.
- Proof of Income or Proof of Government Assistance Program(s)

Are you currently: Unemployed ____ Employed ____

Your gross household income (include income from all contributing family members):

\$ _____ Monthly ____ Yearly ____

How many people live on the income stated above? Adults ____ Children ____

Please circle the government assistance programs you are currently on (if any):

Food Stamps WIC Medicaid Larimer County Works/TANF SSI LEAP OAP
Aid to the Needy Disabled (AND) CCAP OLTC Section 8/Public Housing Other _____

Do you need assistance feeding your pet(s)? Yes No **If yes, you will need to complete a Kibble Supply 2020 Registration Form.**

By signing below, I verify that all information in the application is correct and true and that I am the owner of all listed animals in the application. I agree to the above financial status verification process and proceedings. I understand that this is an application and not approval for assistance.

I understand that a representative of Animal Friends Alliance will contact me to inform me of what assistance I have qualified for within 10 BUSINESS days (does NOT include weekends/holidays) of my submitting this application and all required documents.

I understand that the PAL+ Program is intended to be a one-time opportunity per individual/family. If I add pets to my household or need yearly boosters for my current pets, I agree to submit a new PAL+ application for approval. I have included a copy of my I.D. and my Medicaid, S.N.A.P, or other form of government assistance OR proof of income.

Frequently asked questions:

Why should animals be spayed/neutered?

- About 2.4 million healthy, adoptable cats and dogs—about one every 13 seconds—are put down in U.S. shelters each year. Often these animals are the offspring of cherished family pets. Spay/neuter is a proven way to reduce pet overpopulation, ensuring that every pet has a family to love them.
www.humanesociety.org/issues/pet_overpopulation/
- Pyometra is an infection of the uterus (womb). It is a common condition in female dogs that have NOT been spayed, and can occur in un-spayed dogs of any age. Occasionally we see cases occurring in cats. This results in a trip to the emergency hospital where it can cost thousands to save the animal's life. This life threatening condition is completely preventable by spaying your pet.
- In addition, there are many behavioral and other medical benefits to having your pet altered, including preventing certain forms of cancer and preventing "marking". For more information on these benefits you can visit: www.ASPCA.org.

Is it really important to have my animals vaccinated?

Rabies vaccinations are required by law in Larimer County. Any animal having a spay/neuter surgery at our clinic must receive a rabies vaccination unless a current rabies certificate is provided. Distemper combo vaccinations are important for keeping upper respiratory viruses in check and preventing deadly diseases such as parvo and distemper.

Isn't microchipping a luxury?

No. The latest statistics from Larimer Humane Society show that only 19% of cats/kittens and 86% of dogs/puppies brought into the shelter are reunited with their owners due to a lack of identification. When an animal is brought into a shelter or veterinary clinic, he/she is first scanned for a microchip. For an animal that has been microchipped, a quick phone call to the family will reunite them. An animal who is not microchipped may sit in the shelter for several days before his/her family locates their lost family member. Families may not be able to afford the fees charged by the shelter to reclaim their pet, and therefore in some instances end up having to surrender a beloved pet.

Microchipping helps to ensure your family member will be returned home when they become separated from you, especially when emergencies occur.
