

The Kibble Supply Pet Food Pantry is a program designed to help community members feed their cats and dogs. Any individual who qualifies (including caretakers of feral cat colonies) can take advantage of this program so long as they are willing to abide by the guidelines set in place. This program is NOT available to other rescue groups or shelters.

Kibble Supply Program Policies and Guidelines

- ☐ To be in good standing with our Kibble Supply program, you must:
 1. Meet our low income qualifications based on acceptance into government assistance programs or household income requirements.
 2. Show proof of spay/neuter for all animals in the household, or be making plans for spay/neuter.
- ☐ All clients must apply online or in person to join the program.
- ☐ All clients needing pet food support are asked to provide photo ID AND proof of income/need. This can be done by attaching photo images to your application response email or scheduling an appointment time with a member of the Community Pet Resources team.
- ☐ If new animals are acquired, the client must reapply showing proof of spay/neuter, and it will be up to the Community Pet Resources team to determine if newly listed animals will be accepted. Pet food assistance is not guaranteed for newly listed pets. The Community Pet Resources team will determine if the client is to remain compliant in our Kibble Supply Program when acquiring new animals.
- ☐ Clients may only receive pet food assistance from our Kibble Supply program once per month.
- ☐ Clients understand that the program is supplemental and that we will provide food for the listed pets for half of the month. This is determined by the number and size of the animals in the household.
- ☐ The Kibble Supply pet food pantry is donation-based. Our program tries very hard to supply all types of food for pets in the community, however it is first-come, first-serve and there is no guarantee we will have the pet food of the client's choice.
- ☐ Active Kibble clients and those who have used Kibble in the past year are generally not allowed opportunities to adopt at our organization.
- ☐ If a client chooses to not spay/neuter all the animals in the household, it is to the discretion of the Community Pet Resources team to determine if the client is to remain in compliance with our Kibble Supply program.
- ☐ Each vehicle is allowed to pick up food for a **MAXIMUM of 4 households**.

To start the process of joining our Kibble Supply Program, please fill out an application. You'll receive an email regarding next steps after your application has been submitted.
