

PAL+ Program Guidelines (Updated January 2026)

PAL+ is an acronym for Prevent-A-Litter Plus. The PAL program was created to help with the cost of the spay/neuter surgeries, vaccinations and microchipping for qualifying community members. The average cost for a PAL+ client for spay/neuter is \$35 per cat, and \$60 per dog, (dogs over 80 pounds will be an additional \$50). PAL+ also offers discounted core vaccinations at \$10 each, and microchipping for \$15 per animal. PAL+ may also help pay for rare emergency pyometra surgery.

PAL+ Program Policies and Guidelines

- To be eligible for our PAL+ program, you must meet our low income qualifications based on acceptance into government assistance programs or household income requirements.
- All clients must apply online or in person to be considered.
- All clients must provide photo ID and proof of income before being approved and provide spay/neuter proof for all pets. This can be done either by attaching photo images to your application response email or scheduling an in-person meeting with the PAL+ Coordinator.
- All animals in the household must be listed on the application, regardless if they need services or not.
- All owners must agree to spay/neuter ALL animals on the application to be in compliance with our PAL+ Program.
- If a client chooses to not spay/neuter all the animals in the household, that client is no longer in compliance with our program. Exceptions can be rarely made for animals our veterinarian will not operate on due to age or medical condition.
- When scheduling services with the PAL+ Coordinator, clients will receive a quote for the requested services. Payment in full is due on the day of the appointment unless a pre-payment is provided at the time of scheduling. Please note that additional charges may apply on the day of the appointment.
- New animals not listed on the original application may not qualify for PAL pricing. Those additional animals can still receive services from our clinic with regular public pricing.
- Active PAL+ clients and those who have used PAL+ in the past 12 months are not allowed to adopt at our organization. Clients should carefully consider obtaining additional animals based on the program's financial qualifications.
- We have a zero-tolerance policy if a client's animal is a "No-show" for its appointment. A "No show" is defined as not giving at least two business days notice prior to your scheduled appointment date. To be rescheduled, the appointment will have to be prepaid in full.

To start the process of joining our PAL+ Program, please fill out an application.
